

# MUUG Meeting

The Manitoba UNIX User Group

**Date:** Tuesday, March 13<sup>th</sup>, 2018

**Time:** 7:30pm

**Topic:** PostgreSQL: Who, What, Where, When, Why

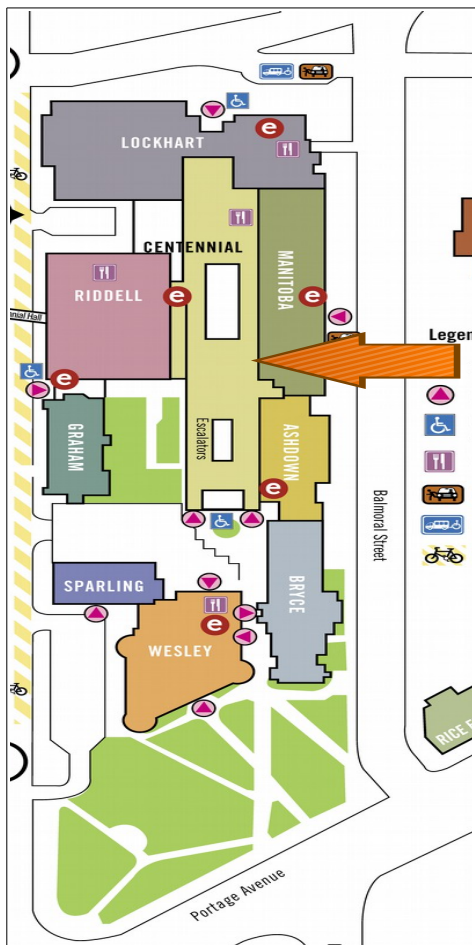

PostgreSQL

Adam Thompson will talk about the PostgreSQL open-source relational database: who should use it, what's it all about, where do you find it, a little bit of its history, and the rationale behind its current existence. PostgreSQL is the leading OSS RDBMS for non-trivial applications, scales to enterprise and beyond (petascale), and has features that let it compete directly with Oracle. In fact, there's a commercial edition that you can buy specifically to replace Oracle!

## RTFM: ulimit/limit

Gilbert Detillieux will be discussing hard and soft user limits for files, memory, and processes.

**Location: 1C16A Centennial Hall**  
*(from September to December),*  
**University of Winnipeg**  
**(Entrance off Ellice Ave., between Spence St. & Balmoral St.)**

Meetings are held in the University of Winnipeg's Centennial Hall (marked "C" on the map). Entrance is on Ellice Avenue, between Spence and Balmoral St. We are now meeting in the centre of campus in room 1C16A, 1<sup>st</sup> floor, Centennial Hall. Look for a sign on the door. Doors are usually open by 7:00 pm with the meeting starting at 7:30 pm.

Parking is available on the surrounding streets. Please see <http://www.uwinnipeg.ca/maps> for further information about parking and access to the campus.
